Thank you for using ArriveCAN to prepare your advance declaration. Your declaration confirmation is included below.

You indicated you will be arriving at Vancouver Intl Airport 1. Upon arrival at the airport, you must certify your declaration using a self-service primary inspection device (kiosk or eGate). Information specific to customs/arrival in Vancouver Intl Airport 1 can be found here: [Canada Border Services Agency \(CBSA\) | YVR](#).

Kiosks and eGates are fully accessible in compliance with Canadian standards. Travellers requiring additional support or who are unable to complete their kiosk or eGate session may proceed to a border services officer for in-person processing.

"Express Lanes" for Advance Declaration users are now available in certain airports. These lanes allow you to skip long lines for primary inspection devices where you will certify your declaration.

At the primary inspection device you will be prompted to scan your travel document and confirm your identity. Once your identity has been confirmed, your advance declaration will be retrieved from ArriveCAN for you to certify.

Please note, if you need to modify any of your responses before your arrival, we recommend that you complete a new declaration using [ArriveCAN online](#) or the mobile ArriveCAN app. Alternatively you will have the opportunity to edit your declaration at the primary inspection device upon arrival – prior to certification.
